

ANI Networks is a privately held, facilities based communications company servicing the wholesale long distance voice market, both Resale and Carrier. With facilities and clients on three continents and a vast domestic Feature Group D network, ANI Networks is a premiere partner to companies in the wholesale marketplace focusing on traditional voice services. By utilizing the efficiencies of next generation VoIP technologies within its network topology, ANI Networks has the flexibility to adapt to ever changing wholesale market conditions and regulatory capitulations, resulting in operational stability and economic longevity for its wholesale clients.

- SWITCHLESS OUTBOUND (1+)
- SWITCHLESS INBOUND (Toll-Free)
- VIRTUAL FEATURE GROUP D
- CARRIER TOLL-FREE ORIGINATION
- FLAT-RATED DOMESTIC TERMINATION

ANI's nationwide Feature Group D network and off-net origination capabilities give ANI the ability to offer the most competitive Switchless products in the nation.

The ANI **R**esource **K**iosk (ARK), a powerful tool created for our customers to more effectively manage their long-distance business, provides unique features like the CEO Dashboard, the Migration Engine, and the Trouble Ticket Wizard.

The diverse product offerings of ANI Networks has positioned ANI to effectively service all wholesale markets ranging from ILECs and CLECs to long distance resellers and facilities-based carriers.

The effective servicing of the above-mentioned markets has resulted in the successful migration of hundreds of thousands of end-user lines and Toll-Free numbers to ANI Networks.
